

# HANDLE-TYPE WIRELESS TRANSMISSION BEACONS

## Features

- Operating frequency is 2.4GHz ~ 2.5GHz
- IEEE 802.15.4 (ZigBee) protocol
- Communications data by AES encryption
- Rechargeable Li button battery
- 30 cm underwater waterproof

## Specifications

Parameters	
Operating frequency	2400MHz ~ 2500MHz
Power	With-circuit rechargeable and replacement rechargeable Li button battery
Battery	3.6V,120mAh(Typical)
Antenna Typ	On-Board PCB Antenna
Processor	Built-in 8-bit microprocessor (Including 8KB RAM and Flash memory 256KB)
Transmission distance	up to 100 meters
Hardware Interface	Two waterproof buttons (Two buttons pressed simultaneously will produce a distress signal. One button pressed provides mode switching.)
LED indicators	Status / Alarm LED indicators
Waterproof	30 cm underwater waterproof
Dimensions	50mm × 38mm × 19.98mm
